CUSTOMIZED DETAILING:

1. A.C. Treatment

This protection is designed to disinfect the Air conditioner ducts and to improve air quality

- Cleans the Air conditioner coils and ducts
- Disinfects the ducts and helps to stop buildup of mould
- Removes all bad and foul odors from the ducts
- Improves in-car air quality for the well being of driver and passengers

2. Upholstery Protection

In this treatment, a thorough cleaning of the fabric is carried out by a proprietary chemical. This removes the dirt, dust & grime including very tough stains like chocolates, coffee/ tea etc. The aerosol used to clean the surface dries very quickly, hence leaving no bad odors and making the interiors fresh.

Cleans & Protects:

- Carpets
- Interior Vinyl
- Fabric
- Plastics
- Rubber surfaces
- Removes all dirt and restores leather seats and side padding
- Produces a true color of fabric giving a natural and rich appearance.

3. Leather Conditioning Treatment

In this treatment, an intensive cleansing of the leather is allotted by a proprietary chemical. This removes the dirt, mud; grime together with terribly powerful stains like chocolates, coffee/ tea etc. The aerosol accustomed clean the surface dries quickly, hence no unhealthy odours and creating the interiors recent.

Cleans & Protects:

- Carpets
- Interior Vinyl
- Leather
- Plastics

- Rubber surfaces
- Removes all dirt and restores leather seats and facet cushioning
- Produces a real color of leather giving a natural and made look.

4. Headlight Restoration

This treatment radically improves the visibility of headlights by giving a new life to the head light cover. It clears all hard water and oxidation from the glass, thereby letting the headlights shine bright

- Removes all dirt, dust, hard water marks from the glass
- Removes the oxidation formed which clears the passage of light
- Makes night driving safer

5. Glass Treatment

This is for cleansing and protection of windshield of cars. With this treatment, hard water marks and oxidation are removed and a fine protective layer is formed to provide clear vision to drive during night as well as during rainy season. This enhances the safety & drive-ability. Dramatically improves all weather visibility, safety and driving comfort.

Cozi Cars water repellent creates a super-slick, non stick coating which causes rain or water to bead up for an aerodynamic run off

- Helps during night drives – No Glare
- Removes all hard water stains – hence improving visibility
- Avoids future hard water mark stains for minimum of one year
- Disperses rain on windshield and reduces the need for wipers.
- Keeps windshield glass clean

6. Engine Coating

This treatment is designed to provide a high gloss and slippery coating on to the engine parts, hoses etc. The primary advantage of this treatment is to prevent the hoses and electrical wiring from getting bitten by rats so that a vehicle parked for a long duration is not a victim of such untoward incidents.

Leaves a high, glossy, transparent surface finish

Excellent resistance to:

- Petrol/Diesel
- Engine Oil
- High Pressure water
- Road grime
- Avoids corrosion
- Can be washed easily
- Does not blister, crack, peel or yellow

7. Alloy wheel Protection

This treatment is designed for cleaning and protection of the alloy wheels. One of the biggest challenges being faced is in protecting alloy wheels from brake dust and grime. This, in-turn leaves spider web cracks on the alloy wheels and cannot be repaired. The beauty and sheen of the alloy wheels is lost in the process. This application is aimed at restoring the lost sheen of the alloy wheels and also ensuring long-term protection.

- Grime
- Only regular washing needed after Protection
- No need for expensive alloy wheel cleaners
- No cracking or scaling off of the Alloy coating
