Diwesh Shewaramani: **Financial Student Mumbai: SINFUL INDULGENCE:** Just Brownies" is the First name that comes to my Mind when i think of Brownies....Living in Mumbai we have many options for Brownies here, but have never tasted something so delicious, chewy and chocolatey....These Brownies are simply " A Treat to Life". "Eat them When your Sad And youll be Happy. Eat them When your Happy and youll feel like Spreading the Joy"... Its Mamta's Wizardry which makes these Brownies so Sinfully Delicious and Exquisite in their Taste.. Wish i could Get more of these in Mumbai!!!

Manish Sajnani: **Service Manager Microsoft India R&D: ANOTHER LANDMARK IN HYDERABAD FOR DESSERTS:** Had never tasted a Brownie before and first time I had Mamta's walnut brownies they were delicious though could never understand why my friends were raving mad about it.... realized when I started eating other eggless brownies... this is SO beyond comparison and the most delicious I have ever tasted. You can keep it in the fridge for many days and put it microwave for 30-45 seconds and its all fresh and yummy.... Good gift to give to friends and relatives for any occasions / festivities.... Most of my colleagues and friends in India & US love it and just can't believe these are eggless ones... Highly recommended. You should also have the chocolate cakes Mamta makes, real mean and so delicious and to top it the rates are very competitive, packaging good & timely delivery... how cool is that :)

DANNY: **Program manager Infosys: Y.U.M.M.Y GOODNESS!!!!** Mamta uses her wizardry (that's my theory ;)) to whip up the moistest, densest piece of chewy perfection! Nothing else explains how she packs all that chocolate goodness into a heavenly bite while still being Vegan (eggless) !! chocolate lovers rejoice! The shop is at 'Paradise' Circle, and that is no coincidence :)

AUDREY VAIDIYA: **Hay House Practioner / Housewife: SIMPLY IRRESISTBLE !!!!** You would think US of A would have some good brownies....but nothing compares to Mamta's brownies. Really miss them!!! They are the most delicious, soft chocolatey, yummmmmmie brownies I have ever tasted.....and to top it all they are eggless. What more could you ask for!!! Easily the best that there is. the perfect combination of taste, texture and tempt score. a warning though - you might get hopelessly addicted to it and i know of no rehab that can cure you.
