	Tyre Polishing									
6	Diamond Treatment									
	Diamond Coating is Long lasting clear & hardest coating with extreme strength resistance & water repellency. It is 60% silica with 99.9% purity. It is thicker & dry faster on surface. It darkens the paint. Its Thickness is 4~5 microns 2 layers. Advantages: (a) Durability about 2-3 years. (b) Water & other forms of liquid repel from surface. This is known as Hydrophobic or Beading Effect. (c) Protects paint from scratches, acid rain, bird droppings, road film, tar and harmful UV rays. (d) Provides deep, rich gloss with a self-cleaning effect, making future washing of your vehicle, faster and easier. (e) Enhance surface hardness (f) Protection against dirt & corrosion (g) Easiness in removal of dirt & grime (h) Savings on the Cleaners	9000	12000	13000	14000	15000	17000	18000	19500	25000
7	Windshield Treatment	1000	1200	1200	1300	1500	1500	1500	1500	1500
